**DELICATE** With fresh chicken

pack size: 4 kg

**Complete dog food**

**It is a special complete meal, specially studied for the daily diet of dogs that tend to be overweight or that have reduced energy requirements due to their age and reduced physical activity.**

It has a balanced protein and energetic content. It is made using top quality select meats and carbohydrate sources made readily assimilable by how they are cooked. Contains FOS (fructooligosaccharides), which help regulate the intestinal flora, and Yucca Schidigera, which reduces faecal odour. The presence of choline chloride promotes the digestion of fats, and also helps protect the liver. It guarantees the optimal ratio between the fatty acids Omega-3 and Omega-6 for ever younger skin.

#### COMPOSITION

Cereals, meats and by-products (chicken min. 5%), by-products of vegetable origin (beet pulp), oils and fats, vegetable protein extracts, fish and fish by-products, F.O.S. (fructooligosaccharides) 500 mg/kg, Yucca Schidigera 0,1%, minerals.

#### NUTRITIONAL ADDITIVES
